DETAILED ACTION

This action is in response to amendment filed 11.17.05. Claims 1-4, 7-9, and 14-24 are pending.

Allowable Subject Matter

Claims 1-4, 7-9, and 14-24 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-4, 7-9, and 14-24 are neither anticipated nor made obvious by the prior art of record. The prior art fails to disclose a method including directing a laser beam to provide two or more spatial frequencies corresponding to at least a first and a second frequency; passing the laser through a multi-pitch grating; converting the output laser beam to electrical signals; filtering the electrical signals to provide a first and second filtered output signal corresponding to the first and second frequencies; and determining a first and second phase difference between the first filtered signal and first frequency and second filtered signal and second frequency; wherein the difference between the two phase differences provide an absolute position measurement. The prior art also fails to disclose a system having means for providing one or more lasers to a multi-pitch grating; means for transforming an output laser beam to provide two or more filtered output signals; and means for determining phase difference between the filtered electrical output signals and temporal frequencies of corresponding ones of the spatial frequencies, wherein a difference in the phase differences provides an absolute position measurement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Livedalen whose telephone number is (571) 272-2715. The examiner can normally be reached on 8:30 am to 5:00 pm.
